DEPUTIES' MEETING

Friday, 10 January 1958

PRESENT: Mr. Dulles, General Cabell, Mr. Wisner, Mr. Amory, Col. White,

[REDACTED]

25X1

Mr. Dulles:

a) Noted that Graham Madison, who apparently is representing an American group for the purpose of constructing a pipeline in Israel, had been in to see him. The Director commented that Madison's group has the money and is ready to go. The Director said he had briefly discussed with Mr. Madison the situation in the Middle East and advised him that the construction of the proposed pipeline is somewhat out of our purview and he should get in touch with Douglas Dillon in the Department of State.

b) Noted that at the OCB meeting on 8 January, Mr. Fred C. Scribner, Jr., the Treasury representative, had raised the subject of Soviet and satellite shelter programs and in the ensuing discussion, it had been brought out that neither Ambassadors Thompson nor Bohlen appeared to know anything about this activity. The Director said in light of conflicting evidence submitted by our Embassy in Moscow, vis-a-vis the reports on this subject produced by CIA, he had been asked to review these reports and the competing evidence. [REDACTED]

25X1

[REDACTED] Action, DD/I.

c) Noted a JAIC report, Soviet Technical Motivations and Capabilities for Evasion of a Nuclear Test Moratorium beginning 1 January 1959, and commented that this committee should be most careful about producing reports on such important subjects without first checking through the IAC. Mr. Amory had not yet had an opportunity to read the report in question in full and undertook to discuss it with Dr. Scoville. [REDACTED] suggested one solution to this problem might be for the Secretary of the IAC to announce at IAC meetings the subjects of proposed JAIC reports in order that the committee might have the opportunity to discuss whether or not it desires to review such reports prior to publication and dissemination. Action, DD/I.

e) Noted that he had been asked by General Goodpaster for the President for a brief run-down on action being taken by the U. S. in covering Soviet guided missile bases. Action, DD/I.
